Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, drawn to an automatic pallet inspection cell.

Group II, claim(s) 8-10, drawn to a pallet gripper.

Group III, claim(s) 11-13, drawn to a method of automated pallet repair.

Group IV, claim(s) 14-16, drawn to a method for leveling a pallet.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the technical feature of an automated inspection station of Group I is not present in any of Groups II-IV, and the technical features "a rigid body having two tines" in Group II, "a scanning device" in Group III, and "a blade of a blade saw" in Group IV are not present in Group I; the technical feature "a rigid body having two tines" of Group II is not present in Groups III and IV, and the technical features "a scanning device" in Group III and "a blade of a blade saw" in Group IV are not present in Group II; and the technical feature "a scanning device" of Group III is not present in Group IV and the technical feature "a blade of a blade saw" of Group IV is not present in Group III.

3. No telephone call was made to request an oral election to the above restriction requirement.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
